

**High Yields**

- > Maximum efficiency over 96 %
- > Best tracking efficiency with OptiTrac MPP control
- > OptiCool active temperature management

**Safe**

- > Galvanic Isolation
- > Integrated DC load disconnecting unit ESS
- > Anti-theft protection

**Easy to use**

- > Fast and easy installation due to plug-in communication unit
- > Innovative DC plug system SUNCLIX
- > Plug-in grounding (optional)

**Communicative**

- > Simple country configuration
- > Multi-language graphic display
- > Bluetooth® technology

# SUNNY BOY 3000HF

Simply high yields

This is the new generation of galvanically isolated inverters – packed full of the latest SMA technology, the Sunny Boy HF series provides the highest yields for transformer inverters of this power class. Installation is now easier than ever thanks to the new DC connector system SUNCLIX, the plug-in generator grounding (optional), and an easily accessible configuration area – including easier mounting due to the reduced weight. The wide input voltage range from 175 to 700 Volt gives you extraordinary flexibility for your system design. And the modern graphic display and wireless Bluetooth® communication system make the devices highly user-friendly.
