

WINDY BOY 3600TL / 5000TL

WB 3600TL-20 / WB 5000TL-20

High yields

- Maximum efficiency of 97 %
- Transformerless with H5 topology
- OptiCool: continuous operation even at high temperatures

Flexible

- Broad input voltage range
- Cable connection without tools
- Programmable polynomial curve enables free selection of turbines

Simple

- Easily accessible connection area
- Low specific weight

Informative

- Simple country configuration
- Bluetooth® Technology
- Graphic display

WINDY BOY 3600TL / 5000TL

Technology meets simplicity

With even better communication, usability and efficiency, the Windy Boy 3600TL and 5000 TL inverters set a new standard. With a modern graphic display, a simplified mounting concept and cable-free plant communication using the *Bluetooth* global standard, the devices are ideally suited to almost every need. The peak efficiency of 97 % results in optimal yields from small wind turbine systems. The polynomial curve and broad input voltage range provide maximum plant design flexibility. The new generation Windy Boy: an inverter for all turbine types.
